Ref: RM-10811

I support the petition RM-10811 and request the FCC maintain Morse code requirements for General and Extra class Amateur Radio Licensing.

I also support the 13 WPM code requirement, sending and receiving, for General Class Amateur License.

I also support the 20 WPM code requirement, sending and receiving, for the Extra Class Amateur Class License.

I also support the following:

- 1.) Technicians should get HF digital privileges in the Novice Bands.
- 2.) Written exams should emphasize technical questions more, especially for General and Extra Class and topics should be updated.
- 3.) Stop instant re-tests at VE sessions.
- 4.) Restore a syllabus of general topics in the regulations similar to before the April 2000 restructuring.

Thank You

Richard H. Singer (K6KSG)
